Foreword

"We're from Central High School and no one could be prouder—"

These familiar words have a special meaning for all Centralites. In Central's 2,100 students there is an overpowering unified drive set in motion by an inner spirit to produce an outer spirit. The end results are visible and can be observed in every phase of Central's life—Religious, academic, social, athletic.

This championship attitude unified by a close relationship between faculty and students permeates the halls, the classrooms and is seen in her contacts with the city and surrounding area. This relationship exists not only during school days but continues throughout the ensuing years.

In the following pages of this annual "Central Catholic in pictures" illustrating the pride felt for a wonderful school and presenting this outstanding past year is displayed openly to all.

The class of '61 stakes the claim that "Central is the best" and proudly boasts of this pride with the statement—"This is Central."

This is ***Central . . .***

"A teacher affects eternity; he can never tell where his influence stops."

This statement aptly describes Father Terence Tobin, O.F.M. Conv., a six year faculty member of Central Catholic High School.

Father, a native of Marion, Ohio, attended St. Joseph College, Collegeville, Indiana, and the University of Dayton for Civil Engineering. Upon returning from three years service in the Navy, he resumed his study of Civil Engineering at Cornell University.

In 1947, he entered St. Anthony Novitiate at Angola, Indiana, from where he went to Carey for Philosophy and to St. Anthony-on-the-Hudson, Rensselaer, New York, for Theology. On May 30, 1953, Father was ordained to the Order of Friars Conventual.

In the month of September, 1955, he came to Central as a religion teacher. From that time on, his presence was felt by the entire school, faculty and student body. He has waged a one man crusade to encourage greater devotion to the Blessed Virgin Mary by emphasizing the saying of the daily rosary and the making of the annual pilgrimage to the Shrine of Our Lady of Consolation at Carey on Ascension Thursday. It takes a truly great man to instill in the hearts of a group of football players enough devotion to inspire them to travel seven miles, Frenchtown to Carey, on foot carrying the statue of Our Blessed Mother on their shoulders.

This year, Father's fondest wish has been fulfilled. He was accepted for a position in the missionary field of Africa where he will teach at St. Francis College in Kitwe, Northern Rhodesia, a country just below the much troubled Congo. It is certain that his virtuous life will be a shining example for the people of that region and that it will do much for the conversion of that area to the Catholic Church.

It is with deep appreciation and sincere gratitude that the Centripetal Staff dedicates this, the 1961 Centripetal, to Father Terence Tobin, O.F.M. Conv.

Attendance office

conviction hall

Sr. M. Cleopha and her helpers in the attendance office keep track of the where-abouts of all students throughout the day. White slips are issued to those who are excused; a pink slip means that he is guilty of being tardy; blue slips are for unexcused absence.

This office plays an important role in the operation of penalty hall. The "happy hour" is held everyday after school in Room 222 for those reported tardy during the day.

Guidance department

analytic quarters

"Will I go to college? Which one will it be?" These are the questions asked by many students as they enter the Guidance Office.

Under the direction of four counsellors, the Guidance Department tries to help the students answer these questions through detailed analysis of their scholastic record, financial situation and vocational abilities.

As a result of the work of our Guidance Department, many more students have been able to enter college after graduation than ever before in the history of Central.

Sr. Mary of Mercy talks over requirements for college with B. Muszynski.

Mrs. Wroe checks Sue Tremmel's application for nursing.

Nurse's quarters

health spa

In room 224, Mrs. L. Wroe, Central's school nurse, works hard and diligently in order to help the students who may become ill during the school day. She is always ready and available to help any student with any type of ailment but will foil the attempt of anyone who wishes to leave school unnecessarily.

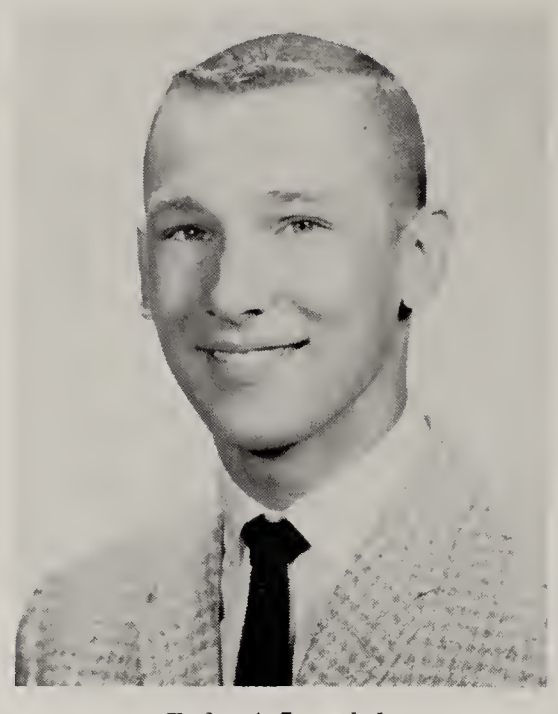
Valedictorian



Robert Jozwiak

After four years of high school, Robert Jozwiak reached the pinnacle of scholastic achievement by ranking first in his class with a 96.4 average thus becoming its valedictorian. This is a fitting reward for the effort which he expended to achieve this excellent record.

In his senior year, Bob served competently as co-editor of the Centric. He participated in track, baseball, basketball and football. The fact that he was a member of the football squad which won the City Championship climaxed his sports career.

As a member of St. Catherine parish, he has been active in its CYO program throughout high school. His plans for the future include college where he intends to take up architectural engineering.

Salutatorian

During her four years at Central, Alice, who came from Blessed Sacrament Parish, has been active in many extra-curricular activities. Alice was an officer of the Biology Club and in her junior year served as Treasurer of the class. This year she held positions in the Math and Chemistry Clubs and was the active Co-chairman of the production staff for the Senior Play and Operetta.

As a member of the Monogram Club for four years, Alice concluded her senior year with a 96.2 average which made her Salutatorian for the class of '61.

Upon entering college, Alice will major in the field of education as a preparation to a teaching career.

We write in words and pictures the record of our four years within your loving walls. Memories of the friends we have made, the joys we have felt, the activities in which we have participated will be reflected, through the years to come, from the pages of this 1961 Centripetal.

Juniors write Formal Essay

Every year during the fourth six weeks of the school year, the library becomes a popular place for the juniors. Why do the Juniors dwell in this place you ask? A little item attracts them, namely information they can obtain from books and magazines for their formal research paper. This is a necessary assignment for the juniors in order to graduate. The essay is the biggest project they undertake all year.

Mathletes form Unique Club

Mathematical freshmen strive to better their mathematical education. In an organization started by Sr. M. Xavier called the Mathletes. The students cover math topics in almost half the time it would take during a full period. A contest is held between two Mathletes, who work out problems given to them in a measured amount of time. One point is given to the Mathlete and his team if the answer is correct. The Captain solves difficult problems and asks intelligent questions. He must be able to use the mathematic vocabulary effectively.

Central's ***Classes*** *contain* *the answers to student questions*

Rev. Luke Connolly, CP

Retreat

1961

Rev. Canute Horack, CP

During his three day stay at Central, Father Luke Connolly, C.P., girls' retreat master gave inspiring talks on the love of Christ which drew his hearers closer to God. The most memorable, according to the girls, was the lecture on the Passion of Christ.

Father Luke, who was born in St. Louis, Missouri, was ordained in 1953. Since his ordination he has been engaged in giving retreats. His work has taken him from North Dakota to Michigan, from Ohio to Arkansas, and from Texas to Oklahoma. At present he is the Vocational Director of the Passionists in the Chicago area.

The boys' retreat master was Father Canute Horack, C.P. His lectures on the sacrifices Christ took upon Himself for the salvation of mankind made a deep impression on the boys. Their reaction was that they, in return should be willing to make more sacrifices for Him.

Father Canute was also born in St. Louis, Missouri. After his ordination, he was Director of the Passionist Fathers' Retreat House in Sacramento, California, for three years. Presently stationed at St. Gabriel's Monastery, Des Moines, Iowa, Father gives missions and retreats in the Midwestern and Southern States.

Retreat, annual inventory of student life opens the second semester activities

Central's retreat, the most important spiritual activity of the school year, opens the second semester. It is a time of recollection and meditation within the entire student body. This time is used by the students as an annual inventory of their entire lives, a gateway to grace, and an opportunity for spiritual advancement.

Mass begins each day of the retreat with most students receiving Holy Communion. Between conferences by the two retreat masters, confessions are heard and the priests are always on hand for private talks.

The climax of the retreat is reached when the retreat masters give the Papal Blessing to all who have made the retreat.

Religion study offers students principles on which to base daily conduct

In a civilization such as ours—characterized by the spreading evils of Communism and materialism—it is necessary for Centralites to have a firm foundation in the principles of Catholicism. The religion courses aim to develop the student's thinking, speaking, and acting according to the principles of morality.

The object of our religion course is to enable students to know and practice their faith in order that their eternal resting place will be heaven. Knowledge of our religion is essential if we wish to please God in our daily actions and gain a high place in heaven. Catholic principles are instilled in us and we learn to use them to our advantage during life.

The first three years concentrate on the works of the Three Divine Persons, and in the senior year, the course is centered on vocations. This, therefore, prepares the graduates for a happy life while using the graces of God.

Public Speaking offers opportunity for clear expression of thought

Many people fail to realize how important it is for them to be able to express their thoughts clearly to other people. To help our students with this problem, Central offers them a general course in public speaking.

Poise, self-reliance, and clear expression of thought soon become the aims of the students. They quickly gain poise as they begin to make timed speeches in front of the entire class. The speeches grow in length and become more difficult as time goes on. As the students become more experienced, many new and novel ideas are brought to class. For instance, the students are required to make one selling speech apiece on some ridiculous article which they must prove to the class is very useful.

At the end of the year to prove their ability as public speakers the students must participate in a debate about a current problem. Some students of Central's public speaking classes have had a chance to prove their ability as debaters on a local television program called THE JUNIOR TOWN MEETING which discusses weekly, one of the major problems the United States is currently confronted with.

English course plays important role in establishing correct communication

English grammar and literature are requirements at Central throughout the four years of high school. It is just as necessary to understand classical literature as it is to put grammar into practice. English is possibly the subject most taken for granted at C.C.H.S., but in reality it is one of the most difficult. It is basic to society that people be able to communicate with each other, but how often we find it impossible to relay to a person what our thoughts are.

The freshmen and sophomore years deal extensively with grammar, touching only slightly on literature. Juniors write a research essay, thereby completing one of the major requirements for graduation. Centering their attention on English literature, the seniors also have the choice of Public Speaking, English composition, and Journalism.

Every year students participate in various essay and poetry contests. Central has always placed many winners each year. The students are urged to take part in after school activities such as the Senior Class Play, the Operetta, and the CYO oratorical contest. All of these help to broaden the students knowledge and help them achieve a greater understanding of our language.

Romantic language unfolds liturgical, scientific world to Latin students

"Latin, a dead language," is a statement not applying to Central. Many students study this romantic language offered as a four year course to C.C.H.S. students. Many scientific and everyday words are found to be derived from Latin, with the entire liturgy of the Mass being written in it.

Drama unfolds itself and reveals Rome as the land of power, glory, pomp and spectacle. It opened before the Latin student a road traveled by the august chariots of kings, emperors, and noblemen.

During the four years the Gallic Wars of Caesar, Cicero's Orations, and Virgil's poetic version of the founding of Rome. Senior enthusiasts are able to engage in conversational Latin.

Latin is the basis of practically fifty percent of the modern English language. It is the basic study for the priesthood and is also highly recommended in the study of medicine, law, and music.

Besides the main topics taken each year, the Latin classes take up the annual National Auxilium Latinum test given by the Association for the Promotion of the study of Latin. In this test Central's rank has always been above the national median.

Four-year course in German leads to intensive study of language

During their four years at Central, students have a chance to study German, one of the most fascinating languages of our modern time. Only within the last two years has the course been expanded to its present status of a four-year course. As the students cover the four-year course much headway is made in the understanding of this modern language.

For the first two years, the students' attention is focused primarily upon grammar and pronunciation. When the students become familiar with the basic rules of grammar, they begin to build upon their pronunciation by making daily readings directly to the class.

During the last two years of the course, the students attempt, mainly to build upon their German vocabulary by reading numerous German magazines in addition to their normal class work. In their fourth year, the more advanced German students are given a chance to discard their textbook and work primarily upon the translation of various German newspapers and magazines.

As a result of the study of the German language, the students learn more about the customs and interests of the German people and become more understanding as to their needs and problems in this modern world.

R. Thompson reads to the class from a German magazine as A. Bearley, F. Duschl, D. Szymanski, and J. Harms await their turns.

D. Hitchings, J. Koshab, and R. A. Harley wait at the board for French dictation to continue.

Basic rules of grammar, vocabulary challenge sincere French student

First year French students begin to travel the road to France by instruction in the basic rules of grammar and vocabulary. As they progress, they study literature, traditions, customs, and history while still improving their grammar. By the study of this language their minds are trained in accuracy and clear thinking while they develop a sense of appreciation for our French neighbors across the ocean. Having acquired this knowledge, the student is more confident if he travels abroad or delves into foreign literature. A knowledge of the contributions of the French to our civilization will broaden a student's viewpoint.

Learning French is not only of value to those who will someday visit France. Restaurants and cook books use many French terms and many of our English words are derived from the French. This knowledge greatly aids the student in literature and travel while it furthers his intellectual scope.

B. Solomon's question about the Spanish flag is answered by C. Kwiatkowski as M. Koersch, C. Lintner and A. Kruzel hold the flag.

Grammar, customs, geography of Spain included in study of elementary Spanish

Central students are offered a four year course in Spanish during which time they learn the grammar, customs, geography and history of Spain. After the basic study of grammar and sentence structure the students learn the customs, culture and history of the Spanish people. It introduces the student to one of the most colorful, romantic nations of the world.

The customs and culture of the Spanish people are reflected in their every day life. Gay fiestas, exciting dances, temperaments vibrating with enthusiasm and magnetism, render Spain, a country rich in traditions and customs, truly a land of culture and beauty.

Knowledge acquired through the study of Spanish is practical because it can provide a closer understanding of our Pan-American neighbors and can help us to avoid misunderstanding, commercial jealousy and social quarrels. With so much attention being focused on the South American countries, the Spanish student can help to foster a better relationship with our Spanish speaking neighbors. The language also holds an offer of usefulness in such positions as the diplomatic service, commerce and journalism.

Christmas panels in tempora or felt on burlap are being made by C. Trabbic, L. Goulding, and M. Schramm.

New techniques found in novel ideas; use tempera, oil, felt for creation

Under the direction of Sr. M. Lucilla, R.S.M., the boys in the art classes learned many new and amazing techniques and were soon creating their own ideas.

Individuality in expression was noted as each student began work on the Christmas project. Panels portraying Nativity scenes were made of burlap. Some painted a bust of the Madonna and Child using either tempera or oil paints to gain the desired effect. Others, instead of using paint, cut pieces of felt to create beautiful images and scenes.

Earlier in the year the students took advertisements and redesigned them to suit their own individual taste and style. By means of water colors they were able to achieve many new unforeseen effects.

The department was also responsible for the bulletin board which showed the progress of the school in its sale of tickets for the Senior Class Play "The Late Christopher Bean."

J. Billy, E. Leslie, and M. Hart help set up display on corkboard.

Stress of art elements and principles highlight four years art instruction

Central offers a four year course to any girl with a genuine interest in art and the willingness to expand her knowledge in the artistic field. During this time, the student is given complete instruction stressing the elements and principles of art. Oil-painting, crafts, color theory, calligraphy and water painting include only a few of the many techniques she is taught. The girls also learn to observe their surroundings, for awareness is the keynote in art.

In this department, the head, heart and hands are used to make artifacts. Service to God, fellow creatures and self, motivate all activity, with an emphasis on womanhood and the acts of the Christian family life.

During this four year course everyone's interests are covered, which helps to complete a well-rounded education by instilling in the art students a love for God.

D. O'Loughlin presents his case in a labor encyclical debate as M. Bihn, J. Kwiatkowski, P. Duck and R. O'Dell listen attentively.

Government functions to safeguard God-given rights of humanity

The function of Government is to safeguard our God-given rights by the administration of just laws for the common good. The Christian Social Principles are instilled in the minds of the students so that they might better understand the means for attaining this type of Government.

This course presumes that high school seniors are both capable and desirous of thinking like adults. Through this course the student will soon learn to distinguish between fact and opinion and to have a greater knowledge and appreciation of governing bodies. Though the student is not an expert in government, he soon develops the ability to evaluate an opinion for what it is worth, and to formulate opinions of his own.

For the first time Central's seniors are taking a full year of government, entitled National Problems. The text book is one of the Christian Democracy Series, "The Common Good" by Thomas Neill.

M. Michalak, L. Skaff and P. Coffman put up history project booklets prepared by their class.

Story of mankind's successes, failures taught in three year history course

Central students have a three year history course offered to them in which they can learn the story of mankind, his successes and his failures. The course begins with man's earliest stages of development in the study of Ancient History, and continued in Modern History which is taught to the sophomores. The course is brought to a climax with the study of American History through which students see their country progress from its discovery to the present time.

Through the study of history, students become acquainted with the past and present and become more willing to take responsibilites in the future as citizens of the United States toward the goal of world peace.

History develops an appreciation of the parts played by many Americans in helping our country grow; a desire to be a loyal patriot, a high minded Christian citizen, and a willing participant in local, state, or national affairs if called to serve.

Central's mathematics department offers student four year math course

Among the prerequisites for entrance into many colleges is a sound education in mathematics. Central's mathematics department is well aware of this and gives the student a real challenge by offering him four years of math training.

Facing the incoming freshmen is an elementary course in the basic functions of algebra. In his second year, the challenge of logical thinking is afforded the student in plane geometry with the study of two dimensional figures.

To further his knowledge of algebra, a year of advanced algebra is offered the advanced mathematics student. Here the student is given a chance to prove his ability as a real mathemetician by using various intricate algebraic formulas. As the student enters his fourth year, a stimulating course in solid geometry and trigonometry is given him. The student is now given a chance to prove his ability to work with three-dimensional figures as well as many other types of dimensional figures.

In this age of the Polaris and Atlas, math has become basic to survival and world peace.

Intersected prisms are being discussed by G. Ziel, D. Skryzynecki, R. Pawlecki, D. Mercer, and J. Frederick.

Engineers, draftsmen learn principles of projection drawing basic to design

Central's budding engineers and draftsmen learn the principles and basic concepts of the system of projection drawing. These principles are considered basic to engineering design or industrial drafting.

The first year of the two year course acquaints Centralites with the principles of orthographic projection, pictorial drawing, and surface development.

Engineering geometry, which enables the students to improve their ability to reason in space, is part of the second year course at C.C.H.S. Several phases of machine drawing are studied, including shape and size description, fasteners, cams and gears. The knowledge acquired is then applied to individual projects.

At this point the student is well prepared for college, having a basic knowledge and understanding of engineering graphics.

M. Morrison and C. Bialorucki explain orbital models to the class.

Science department introduces CBA course to senior Chemistry students

The chemistry department has a new look this year with the introduction of the Chemical Bond Approach course. This revolutionary course gives the students an insight to the secrets of chemical bonding through which they are then able to predict whether or not a reaction will take place. Besides bond energies the young chemists also have various types of models such as charge cloud models and electron models to aid in their predictions.

In the lecture periods, held three times a week, this theory is taught to the students and then applied to practical cases in the laboratory. Each week, in these two double-period sessions, they can learn answers to their questions of "Why?", "How?", and "What?", through diligent use of their lab equipment and chemicals from Central's well-supplied stockroom.

The rapid advancement of science in this new atomic age of satellites and nuclear warfare has widened the horizons for the young men and women of our generation. This field affords outlets to every phase of life and enables the young chemist to obtain a general and useful knowledge of them.

Chemistry occupies a basic position in present day civilization. No matter what career a person chooses to follow in life, chemistry enters into the picture.

An experiment on heat expansion is being worked by R. Lanzinger, D. Hodak, C. Matuszak, and P. Szalkowski.

Physics students learn basic science principles governing daily actions

Physics builds a great future for those who wish to advance in the world of science. It gives the student the basic laws of science which govern many of our everyday actions. These principles are necessary in the growing scientific world of today.

Under the direction of Mr. Val Fischer, the students obtain valuable information in lecture and attempt to put this information into practical situations during their laboratory periods.

As the experiments are worked, a detailed record is kept by each student of his work. From this, a report, which includes theory, apparatus, procedure, calculations and conclusion, is written by each student. By writing a report of such nature, the student is given a chance to prove logically the reasons behind the many actions he observes during his work in the laboratory periods.

Many times in the course of the year, the students are given a chance to supplement their studies by means of visual aid in the classroom. Movies on the mechanics of motors and the fabrication of materials aid the student in his study as he sees a practical application of the scientific principles.

Also, this year, many of the students undertook projects in the field of physics which were entered in the annual Science Day held April 8 on the campus of Bowling Green University.

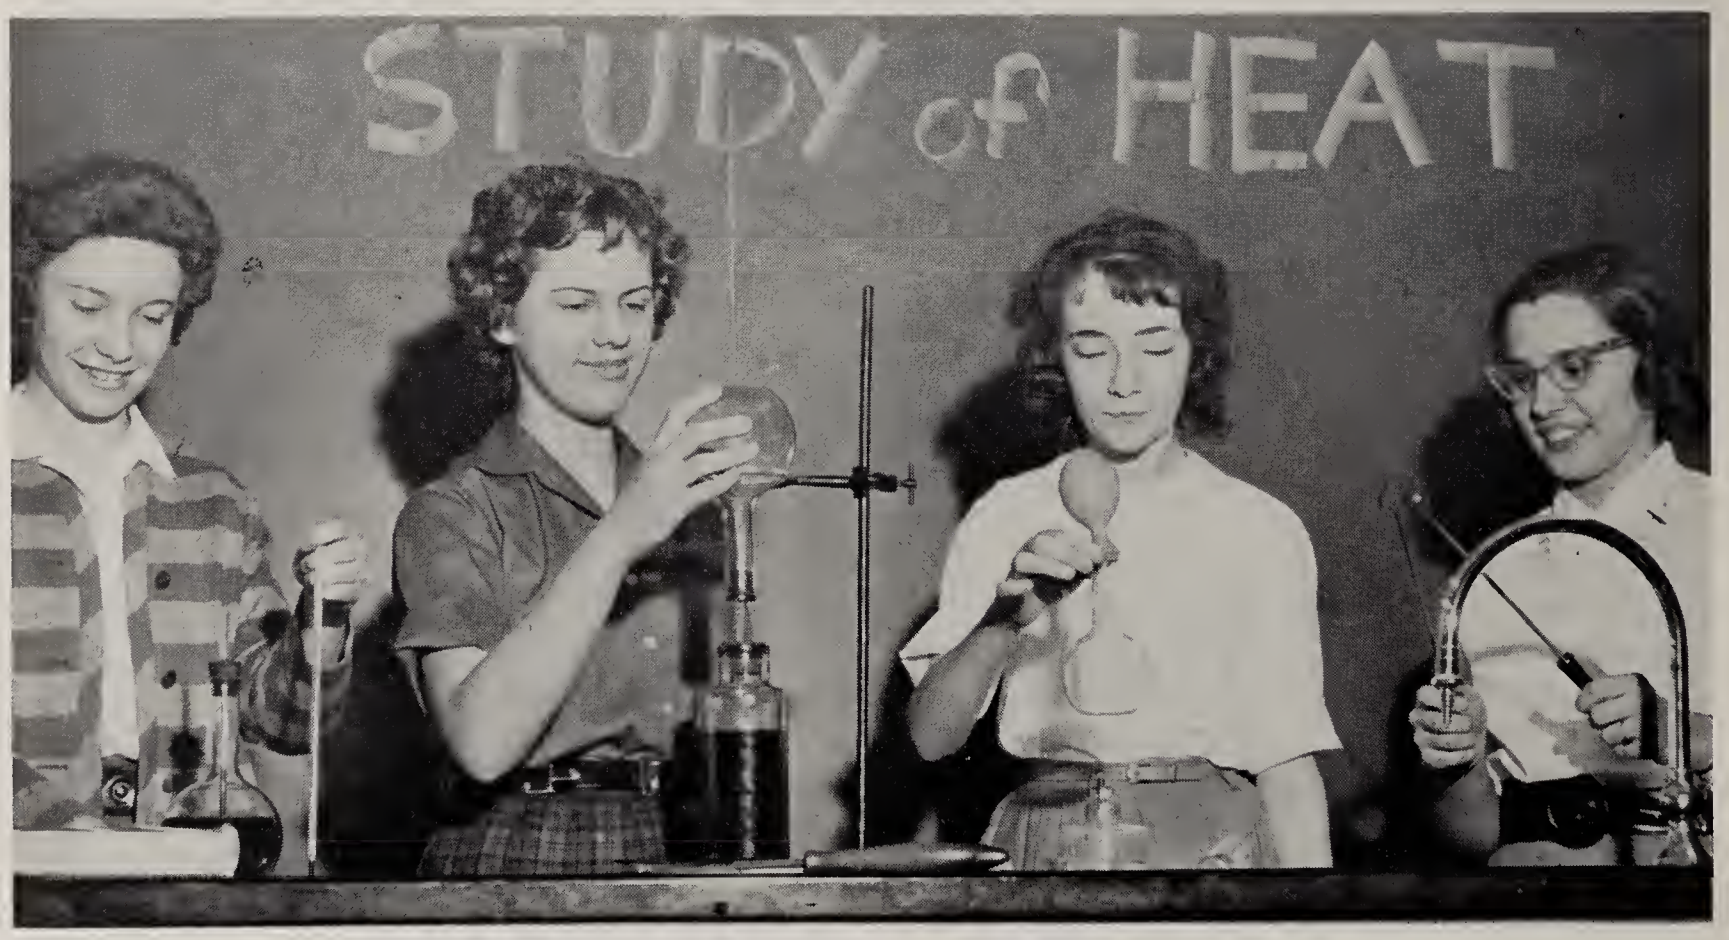
Nation's future depends on health

What our future will be, individually or as a nation, depends in large part on our health. The goal of this course, physiology, is better living for the students who use it.

By studying the functions of each part of the body, the student further realizes the wonders of God.

Each pupil learns how to better his personality and how to have a better outlook on life. He learns to recognize the fact that a great measure of real success is attained by physical, mental, social and moral living.



Demonstration of heat is given by K. Fisher, M. Refermat, P. Rice, and J. Langel.

General Science opens door to advanced studies which unfold world's intricacies

General Science opens the door for the student into the wide world of science and gives him a basis for more advanced studies.

The principles of science which are taught in this class enable the student to realize more fully the beauty and the intricacy of the world into which God has placed him.

J. Beller and A. Gajewski scale an alligator while J. Konczal and M. Przeniczny observe slides.

Hamster antics intrigue J. Measley and L. Grill.

Basic, complex stages of creation challenge the biology student

All nature was created by God and all in nature has a purpose for being. Biology helps us understand that purpose and it shows us how skillfully God has put the world together. The development and growth of life from its basic stages—one-celled plants and animals, to its complex stage—man, is a challenge to students doing research.

During the laboratory classes, the students dissect insects, frogs, starfish and earthworms. By this, they see the wonders of God's creation.

Many students create projects which are submitted at the University of Toledo for the annual Science Day. Those with an excellent or superior rating may then go on to state competition.

Commercial classes train students to meet business requirements

The main goal in the Commercial Department is the training of Centralites to meet the requirements of the modern business offices, which are speed, accuracy and production. Commercial subjects include typing, shorthand, office practice, bookkeeping, business math and law. All of these are extremely helpful to a student desiring entrance into the business world after graduation.

Typing, which is basic to a business student, drills the students on speed and accuracy. They are also shown the various uses of the typewriter which will benefit them in a business career.

First year shorthand offers basic fundamentals in vocabulary building, brief forms and phrases, while the second year presents the more difficult problems of the business office.

Bookkeeping, which is required for tomorrow's accountant, insists on systematic habits, clerical neatness and accuracy. Fundamentals of accounting and the duties required by business are stressed.

Office practice enables the student to learn how to manipulate office machines such as the dictaphone, adding machines, addressograph, and multigraph which he will probably meet later in an office.

Commercial law acquaints the student with both the legal and social aspects of laws. Each student is given an opportunity to participate in actual "court sessions" held in the class. These are inaugurated to stimulate interest in the laws and their application to personal, social, and business life which they will make use of in future years.

Students obtain music culture

Students interested in attaining musical culture have an opportunity to learn more about composers and their compositions in the Music Appreciation course offered to them at Central.

With the glee club as a primary objective, the freshmen and sophomore girls' chorus works diligently to improve their singing. They sing at assemblies, including the Christmas program. On some days you will find some of the chorus members singing the daily Mass in our Chapel.

Assistance to education

Thousands of books, periodicals and pamphlets offer a wealth of knowledge for the students as they gather material for their school work and research papers. The biography and fiction sections provide the students leisure reading and enjoyment. The library provides the reading and reference facilities necessary to make our educational program effective.

Central's library is open to the students before school, at the lunch periods and after school.

P. Huber, C. Schramm, and M. Jagielski do research on fibers.

Home-making art offered students

Among the many opportunities presented to the girls of Central is a well-rounded course in the art of home-making through which they learn to solve problems that they may face in future years.

Under the direction of Sr. M. Kenneth, O.S.U., and Sr. Alice Marie, O.S.U., the girls learn various skills in the art of becoming a modern mother and housewife. Included in this homemaking course are sewing, cooking, home nursing, and home management.

As the girls learn the value of the family and its relationship to the world, they also learn to make the Holy Family, with Christ as its Head, the model for their own families.

Coach T. Dever

With the flame of his Irish Spirit burning brightly, Mr. Dever has shown to be well qualified in guiding Central's athletic program. Throughout the football and basketball seasons he has added encouragement which, if it had not been given, would have meant a great loss to Central this year.

Besides adding his support in the field of sports, Mr. Dever will be remembered by many as a teacher of ancient history and economics. Here also it is safe to say that he possess great skill. Thus, with sports and the development of the mind, one can easily find him a worthy son of the name "Fighting Irish".

Mr. Thomas McHugh graduated from Central Catholic in 1950, making the All-City football team that year. He then entered Notre Dame where he played fullback on the varsity football team. Mr. McHugh started teaching at Central Catholic in 1955 and acted as lightweight coach. In 1956 he became the Head Football Coach of the "Fighting Irish". Mr. McHugh has never had a losing season and in 1960 he coached the Irish to their first undisputed City Football Championship in 25 years.

Coach D. Piloseno

Since 1954, when Central added him to its faculty, Mr. D. Piloseno has done excellent work in the sport's department. As an assistant football coach, he heads the line which has a reputation of being among the best in the city. Besides this duty, he is the head coach of the wrestling team which won the city crown this year with a perfect record.

His schedule at Central also includes such functions as the bowling coach, physical education instructor and the director of the intramural basketball tournament.

Mr. Basich, better known as the "Delta Flash" in his college years, came to Central in 1957 as an assistant football coach and a teacher of government. This year he also functioned in the post of physical education instructor. During the past football season he set up many decisive plays which helped lead our team to the City League Championship. Mr. Basich is also efficient as head track coach.

Road proves rugged for lightweights; "Baby Irish" second in league play

Central's lightweights, coached by Mr. Thomas Lyons, who did an excellent job, played a rugged schedule this year. There were a number of outstanding players on the team this season and with the experience they have had they should be an important asset for the 1961-62 varsity squad.

Through the knowledge and know-how of Coach Donald Lewis, Central's "Baby Irish" were able to set a 5-2 record and finish in second place in the City League.

Because of the experience gained this year these freshmen should prove excellent material and set high records for the 1961-62 lightweight team.

Cagers place third in City League; Coach Nichols completes fifth year

Central's 1961 "Fighting Irish" basketball team made use of all potentials in its drive for a successful season. The team ended its round of regular play with a 14-4 record and third place in the city league. This year's team included underclassmen who have gained much valuable experience that should be carried over for another successful season.

Mr. Nichols, head basketball coach at Central since 1957, added another excellent year to his already outstanding record. It is a well known fact that the experience he obtained while playing on the Toledo University team of a few years ago, has been instilled in the basketball teams of Central and the results are quite evident.

Grapplers take City, District, Regional Tournaments; three advance to State

Central's matmen proved the statement that "the sport of wrestling is becoming bigger and bigger." With each succeeding match the team showed their ability by winning it. This sport takes much hard work and practice and under the guidance of Coach D. Piloseno the team showed that hard work pays off.

This season the grapplers won not only the City Championship, but also the district and regional meets. In the 16 matches, they posted a 16-0 record.

Dave Reinbolt, Marty Brown and Tom Miller represented Central in the State Tournament, March 4.

Rain delays batsmen in season's start

During the early part of the season, it was "rain, rain go away," as the baseball team saw game after game postponed because of a downpour or a muddy field. Sunny skies brought smiles and wins as the nine, under the direction of their new coach, Mr. J. Cordiak, strove for another successful season.

Lettermen from last year paved the way to triumph with the newcomers to the team playing an important part and gaining much needed experience.

Every year the batsmen compete in a tournament among the city league teams and do well with the exceptional talent of the team. Truly, the team has earned the name "Fighting Irish."

Teams name most valuable players for football, basketball, wrestling

After successful seasons, the teammates of the football, basketball, and wrestling teams voted for the most valuable players. The football squad named Wyman Miller as their player; the basketball cagers chose Carl Utz and the wrestlers elected James Dugan. The results of the teams' choice were announced at the respective sport's banquets.

Wyman Miller, tackle and co-captain of the champion football team was chosen for the All-City first and second teams. He also was named to the All-State second team. Wyman plans on advancing his football career in college.

Carl Utz, one of the tallest men on the basketball team received the M.V.P. award for the cagers. He, who also was named to the All-City first team, plans to further his basketball career at Toledo University.

James Dugan, co-captain of the grapplers was awarded the M.V.P. trophy at the annual wrestling banquet March 19. He sustained an injury in the district tournament which prevented him from Regional and State Tournaments and ended his wrestling career.

GAL offers active sports program to athletically inclined girls

Although the girls may not be seen on the gridiron or on the basketball floor, they do have an active sports program. Besides the daily gym classes, which are under the direction of Miss Joan Leonhardt, they have the GAL or Girls Athletic League, which participates in bowling, swimming and horseback-riding. Competition in these sports develop a spirit of group sportsmanship.

Through the GAL program lessons in teamwork and co-operation are taught preparing the girls to live more harmoniously with their community in their future lives. Accompanying these lessons is the glow of pride for victories well earned.

As a fitting tribute to these female athletes a GAL banquet is sponsored at the end of the year. At that time letters, pins, bracelets, and trophies are presented to those who have rightfully won them during the year.

Club promotes religious life

The main purpose of the St. John Berchman Society, which has been in existence since 1936, is the promotion of religious vacations among members.

Some of the main functions of the society are to serve Mass, take part in the May Convocation, First Friday Benediction and the Senior Day of Recollection. The society is under the supervision of Sr. M. Louis, S.N.D.

Missionary aid Apostolic goal

This club is the heart of mission activities for Central's mission minded crusaders. The members representing each conference room, attend monthly meetings and as a group they conduct the mission activities of the school.

They sponsor the annual sale of Christmas Cards and the Bishop's Relief Fund. In recent years they have collected books and shipped them to various missions throughout the world.

Guilds' purpose care of chapel

Membership in the St. Hilda Guild is extended to all the members of the Girl's Art department. The primary purpose is the care of Central's, Christ the King Chapel. The girls, apprentices, journeymen, or masters, according to their years in the art department, dedicate their work to the glory of God through Mary. Sr. M. Joanne, S.N.D., helps the girls to do their best.

Capturing the world in pictures is the aim of the Camera Club. With everything and anything as the subject, it is not hard for members to fill their collections with interesting and very worthwhile photos. From the active streets of the large city to the peaceful settings of the far away and empty country, the members are always ready to capture the beauty of God's ever changing creation.

Not only do the members of the Camera club take pictures, they also learn the artistry of photography and the processing of films. They meet weekly and discuss pictures and the various types of cameras belonging to members. They also plan a field trip once a year, and after two years membership they receive recognition by a letter with a miniature camera on it.

Sr. M. Lucilla helps the cameramen and women make arrangements for projects and participate in various photography contests.

CAA directs student to Christian art

Since its beginning at Central in 1950 the Catholic Art Apostolate has increased in membership steadily.

The main purpose of the organization is to inspire a true Christian art spirit in others and to work for elimination of "non-religious" art in churches.

Sister M. Joanne, S.N.D., and Sister M. Lucilla, R.S.M., have advanced the combined talents of the girls' and boys' art students to achieve this goal.

"In hoc signum vincemus" is the motto of the Aquinas History club which is now celebrating its 10th year here at Central. This motto, which is Latin for "In this sign we will conquer," is on the club's coat of arms.

In 1953, the shield was altered by August Schug when he added the three symbols which depict the topics studied by the club. They are: 1. world affairs; 2. national affairs; 3. local affairs.

Under the direction of Sr. M. Mercy, R.S.M., the club takes a field trip each year to some local place of historic value.

Spanish club edits paper

"Los Amigos de Espana" is the title of the Spanish Club, now in its third year at Central, with Sr. M. Felicitas, O.S.F. as moderator.

Their special activity, begun this year, was the editing of a Spanish newspaper called "La Charla Espanola", (The Spanish Gossip), issued at intervals for special feasts and occasions.

Math problems defy students

The square of 72? The tangent? These are a sample of questions that are answered by the Math Club at their monthly meetings.

Junior and senior students receive a better understanding of the science of mathematics by studying math problems not ordinarily covered in the regular math course.

Sr. M. Teresita, O.S.F., by helping members to conquer challenging problems has encouraged them to compete in competitive tests and various projects.

Talks enlighten young chemists

The futherance of scientific knowledge is the purpose of the Chemistry Club now in its fourth year with Sr. M. Florian, O.S.F., as moderator. Each meeting is highlighted by a talk or experiment given by the club members.

The main activity for each year is a club field trip. This year the organization toured the Ford River Rouge plant in Dearborn, Michigan.

Club provides extra activity

The Biology Club began with a group of energetic students who wished to increase their scientific activities to include more than what the formal course provided.

The club program includes technical movies, talks by scientists, field trips, and projects for Toledo, Bowling Green and State Science Days.

The fruitfulness of this club, over the years, can be attested by the very high percentage of its members receiving superior ratings for their projects at the annual Science Day.

This year the members of the Future Nurses attended their monthly meetings as well as the meetings of the Area Student Council of Nurses, held at the Academy of Medicine.

During the Christmas Season the members visited The Little Sisters of the Poor and distributed Christmas gifts.

Students study French Spirit

"Voila' France'," "This is France" is the theme of the student club that has particular interest in the study of the language, customs, and spirit of the French people.

The French Club, under Sr. M. Caroleen, S.N.D., has used records and movies of French life to better understand the country and its people. Paintings and pictures also enumerate interesting points in the life of the French.

P. Quilter, S. Kertesz, M. Sequin show interest in the place pointed out by M. Hahn.

J. Gasiorowski, J. Koralewski, L. Vollmayer, P. Warchol arrange retreat pamphlets.

For the first time this year, the students who belong to Y.C.S. became members of the Toledo Federation of Young Christian Students. These students meet once a week with their moderators to discuss international life, politics and leisure time.

The biggest project of the year for the group is the distribution of spiritual reading pamphlets for the student body during the Retreat.

AAG students spread Christ's work

Only the girls in the art department are eligible for members in the Art Apostolic Guild. Through their knowledge of art, members of this club are required to spread Christ, His life and His teachings, through the medium of art.

The officers held a workshop every Thursday in the girl's art department. Ways and means for the promotion of their duties were discussed, and assignments to decorate the display window on the second floor, and the bulletin board in the main lobby were given to the members.

The main activity of this year was repainting the statue of the Blessed Virgin used on stage during assemblies, school dances, and other activities. This work was guided by Sr. M. Joanne, S.N.D., the girls' art teacher.

B. Dore, C. Petryk, R. A. Varga paint statue for use on the stage.

In its ninth year of existence, the Central Catholic Ham Club, has approximately 25 members, three of whom, Dan Metzger, Bill Kersher and Ed Rantanen are licensed ham operators.

Holding their meetings in the basement of the music building, members of radio station W8QV5 are given instructions in radio code and theory and are taught how to contact other hams in this area and throughout the country. They also learn to build their own equipment, which helps them develop skills in electronics. Sr. M. Imeldine. S.N.D., is the moderator.

During the winter season the members train for spring and summer events, in the Catholic Club pool. In addition to skills in diving and swimming the members also study and practice first aid and life saving techniques. A diver is only safe in the water when he knows and understands all of the rules of safe diving and is able to use the self rescue methods in case of emergency.

During the summer season the divers will compete in meets in the Tri-State area, and perhaps bring Central its first skin and scuba diving trophy.

Sixth period journalism class edits the Centripetal, school yearbook

Nancy Klusek

Kenneth Henold

Facing the same problems as yearbook classes of other years, color, dedication, theme, design of the cover and hundreds of other requirements, this year's sixth period class edited another edition of the school yearbook, the Centripetal.

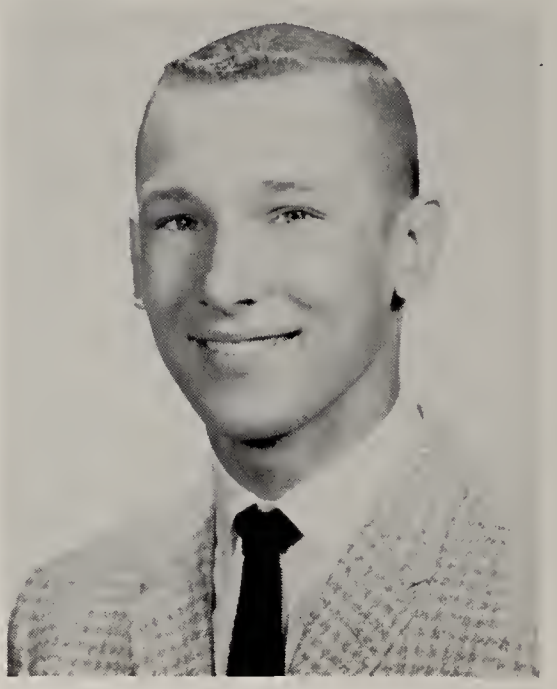
Staff members endeavored to do their best on make ups and write-ups during the class periods but the forty minute period proved all too short for the work at hand. Students spent time after school plus time on free days in the Centripetal office to beat the copy deadline. For this extra effort coupled with the class work, monograms were given at the Senior Breakfast.

This year the class in Room 124 had double trouble since all material had to be in sooner due to the earlier date for graduation.

Journalism classes scoop school activities for bi-weekly paper

Karen Mather

Under the co-editorship of Karen Mather and Robert Jozwiak, the second and third period journalism classes published the Centric, Central's bi-weekly newspaper. Through their efforts, the students and faculty were informed of alumni news, sports news, and various other interesting facts besides the regular school activities which took place during the course of the year.



Robert Jozwiak

The co-editors have had ample help from the competent staff when everything seemed to pile up. There are business, ad and circulation managers, along with editors and associate editors for each page. At the end of the year, gold and silver monograms are presented during the Senior breakfast to those who have done excellent work beyond the regular class periods.

Students in second period journalism class record the number of inches they had printed in the latest issue of the Centric.

Music department develops talent

Through Central's Music Department, musically inclined students are given an opportunity to develop their talents and to acquire a deeper understanding and appreciation of music.

This is accomplished through such organizations as the Marching and Concert Band, Orchestra, Glee Club, and the Girls' Chorus which is composed of freshmen and sophomore girls.

Mr. Gerald DePrisco, Music Director, was assisted this year by a new member to the faculty, Mr. Gerald Lonsway, who took over the Girls' Chorus. Mr. Lonsway also teaches music appreciation, harmony and theory.

Consisting of 21 members, the orchestra provides musical entertainment for the entire student body and faculty during the year.

Through this organization, students are given the opportunity to develop their playing abilities and to combine their talents in producing various programs. Having combined these talents, the orchestra provided the music for this year's senior play, "The Late Christopher Bean", and for the musical skill in the annual Christmas assembly.

Their orchestrations for "Annie Get Your Gun" helped to make this year's operetta a tremendous success.

78 piece marching band provides half-time entertainment

The spirited music supplied by Central's 78 piece marching band provided that extra spark of excitement to the half-time shows during the football season and each assembly throughout the past year.

Practice starts early in July for this group, because upon their performances hangs the opinion of thousands of spectators. Members give up many leisure hours in order to improve their routines. They also help to raise funds for equipment by their annual Tag Day and Candy drive.

Glee Club, Orchestra combine talents to present 'Annie Get Your Gun'

"Annie Get Your Gun," a comedy was presented by the members of the Glee Club and Orchestra, under the direction of Mrs. E. Weiher and Mr. G. DePrisco on April 21, 22, 23 at the State Theater.

As the curtain rose, Buffalo Bill's (John Keller) Wild West Show had just arrived in town and Charlie Davenport (Jim O'Shea) an advance man, was trying to procure rooms for the performers. Gaining little progress with Foster Wilson (Marty Sequin), the hotel manager, Charlie then invoked the aid of Frank Butler (Tom Glick). Frank, challenged anyone to a shooting match. Annie Oakley (Nancy Post), a buckskin-clad girl out of the back woods, accepted and beat him but fell hopelessly in love with him. Annie was persuaded to join the show as Frank's assistant. A crisis developed, when Frank found Annie star of the show. He joined Pawnee Bill's (Lurley Archambeau)troupe.

Chief Sitting Bull (Toby Miller) came to see the show. Later he put his money into a merger of the two shows and helped Annie get her man, Frank.

Class play, "The Late Christopher Bean" reveals dramatic talent of seniors

A comedy from the pen of Sidney Howard was presented by the senior class on November 19, 20, 21. Mrs. Roger W. Weiher directed, with Sr. M. Emily and Sr. M. Kenneth helping in the production with student co-chairmen, Alice Camp and Gary Brubaker.

The 1930 setting presents Doctor Haggett, (James O'Shea) the community doctor, as the curtain rises. His overpowering wife, (Nancy Klusek) the youngest daughter Susan, (Beverly Piloseno) and oldest daughter Ada (Fran Szenderski) with Warren Creamer (Marty Stricker) are helping Abby (Sharon Mazur) the maid of long standing, pack.

An imposter, Mr. Tallant, (Tom Glick) enters to start the action. Doctor Haggett learns the value of paintings done by a former patient, the late Chris Bean. Rosen, (Joe Brewer) and Mr. Davenport, (John Garand) come bidding for the pictures.

After discovering Abby to be the widow of the late Chris Bean, Mr. Haggett restores the paintings to their real owner, Abby.

Homecoming ceremony lauds Queen Judy

This year's Homecoming Queen, Miss Judy Weidner, was crowned by last year's Queen, Miss Diana Bradley, during the half-time ceremony of the Central-Waite game on Friday, October 28th. Many alumni and friends witnessed the beautiful event.

Judy and her escort, John Baertschi, accompanied by Adele Gromnicki, Nancy Klusek, Terry Sturniolo, and Joan Vollmayer with their escorts Tom Glick, Gary Brubaker, Don Kepus, and Bob Agoston made the ceremony very memorable as the largest car caravan in the history of Central descended upon Waite stadium.

A dance honoring the queen sponsored by the senior class was held at Ashland Hall following the game.

WHAT IS A COMMUNITY?

Webster's Dictionary describes a Community thusly: "Community: 1. A body of people living in the same place under the same law; hence, an assemblage of animals or plants living in a common home under similar circumstances. 2. Society at large; the public, or people in general; restrictedly, the people of a particular place or region; hence the region itself. 3. Joint ownership or participation; as a community of good. 4. Common character; likeness."

Webster had a lot of good ideas about a Community. But we like the last part of his description best of all. We like to think that a community is a lot of people—people who have the same common goals—people who will work together to achieve a common purpose.

At Willys we are dedicated to helping wherever and whenever we can to bring about a successful conclusion to anything attempted in the best interests of our Community—Toledo.

OPEN DAY AND NIGHT

ARE YOU SATISFIED?

Grownups know that personal grooming is important if you want to "get ahead". Teenagers sometimes forget to look at themselves objectively.

So that boys and girls could see themselves as others see them, a full-length mirror was installed in the main corridor of a high school in Buffalo, N. Y.

Boys checked shirttails and trouser lengths—even started wearing coats and ties. Girls stopped to tuck in blouses or rearrange their hair. Renewed pride came to this school—all because of a mirror!

A mirror is a "must" at school . . . at home . . . anywhere. Always check your appearance before going out. It's a good habit to form and others will notice.

When *you* buy a mirror, be sure it's made of L·O·F *Parallel-O-Plate®* glass, *twin-ground* for truer reflections and more freedom from distortion. You'll find a wide selection at your furniture, glass or department store.

SNAP COURSE IN *ECONOMICS*

No textbooks. No classes. Just plain economic facts. Practically everything you buy costs more than it used to. Everything *except electricity*. In fact, a dime buys about twice as much electricity as it did a generation ago. You really get your money's worth when you spend it for electricity.

To Madonna
A girl I've known all my life. And I hope after were both married we won't stop ~~young~~ seeing eachother
A Close friend
Carol Zielinski

To Mrs. Couch,
(alias) Madonna Link
Whose was a friend ~~or~~ until she reads this. It has been fun & knowing you this year, you really are a sweet girl at times. I hope you and Mike are together for a long time to come. Maybe if you two are together in 2 or 3 years. You and Mike can double with Gale and me. Tell you what, if you help me save the money, you can go to Germany with me. Ha, Ha, I hope even after you graduate, we can keep in contact. Good Luck always.
A friend always, I hope.
Judy Quinlan
